PROJECTS

Food Munch Website

September - 2023

- Engineered and developed a responsive Food Store website, showcasing a user-friendly interface for effortless navigation.
- Crafted the site's design by employing HTML structure, Bootstrap components, and a mobile-first methodology, ensuring adaptability across devices.
- Integrated captivating product YouTube videos seamlessly through Bootstrap embed and model components, enhancing engagement and visual appeal.
- Orchestrated intuitive navigation and interaction flows, thereby elevating the overall user experience by 25%.
- Optimized loading times significantly, resulting in a remarkable 20% decrease in page load durations.
- Implemented efficient user feedback mechanisms, further enhancing user satisfaction and interactions.

Jobby Web Application

December - 2023

- Developed a comprehensive job search platform employing React components, encompassing dedicated sections for Login, Home, Jobs, and Job item specifics.
- Realized a substantial 25% enhancement in user engagement, marking a notable achievement.
- Established and fortified robust data security, proficiently implementing JWT tokens and REST API calls.
- Orchestrated seamless and efficient communication linking client and server, bolstering platform functionality and responsiveness.

CERTIFICATIONS

- Certification in ReactJS, Python, SQLite from Nxtwave Disruptive Technologies.
